

Programming Remote Control

The remote control can handle these devices. However, first you have to set your remote control up for your equipment. You can do it in one of the following ways:

1. Press **First**, by indicating the manufacturer of your equipment. Select one of the following options: **TV Setup**, **DVD Setup** or **VCR Setup** (depending on what you want to handle). Next, follow these steps:
 - a. Choose the brand name of your equipment. If it is not listed, press **ABC** to cancel and go to **Automatic Search** below.
 - b. Press **OK** and **Repeat** until the light under the former key blinks twice.
 - c. Enter one of the four-digit codes listed below.
2. Press **OK** and **Repeat** until the light under the former key blinks twice.
3. Press **OK**. If your TV/CVCR/DVD has turned off, you have chosen **Automatic Search**. Otherwise, the remote control will proceed through steps 1 - 3.

Automatic Search

Automatic Search should only be used when a list of the brand code numbers works or your brand name is not listed. Use the **Automatic Search** option.

1. Switch on your device. Then press appropriate device key, for example **TV** or **VCR** until you want to set up a TV.
2. Press and hold **OK** until the red light under the device key blinks twice.
3. Press **OK**. The red light blinks twice.
4. Press one of the function keys such as **Power**, **Play/Pause** or **Mute**. However, if you do not press any key at this point, the **OK** is tested.
5. Aim the remote control at your device and press **OK**. The light under the device key blinks twice, indicating that the device is programmed. For example a volume button should only be tested if you have programmed the device. Your device is now programmed to operate your device.

Finding Your Code

If you want to know what code operates your device, you can obtain the code by using the **Device Code** option. Choose the option and follow these instructions:

1. Switch on your device. Then press appropriate device key, for example **TV** or **VCR** until you want to set up a TV.
2. Press and hold **OK** until the red light under the device key blinks twice.
3. Press **OK**. The red light blinks twice.
4. For the first digit of the red-light code, press **OK** and count the number of times the red light blinks. The light does not blink, the number of blinks. Do the same for the 2nd and 3rd digit. Repeat this for the 4th digit. Do not press the **OK** key for the 4th digit. The code is given for **TV Setup**, **DVD Setup** and **VCR Setup** options.

Pressing One Key Instead of Two or More

You may program your remote control to issue a sequence of commands at a press of one key with the **Advanced Mode** option. For example, to turn off your DVR and TV at the same time, perform the following operations:

1. Choose the **Advanced Mode** option.
2. Press and hold **OK** until the red light on your remote control blinks twice.
3. Press **OK** and **Repeat** until the red light blinks twice.
4. Press the key to which you want to assign your sequence of key presses (e.g. **Power**).
5. Press the sequence of keys (up to 6) which you want to assign to press the key. Press **OK** and **Repeat** until the red light blinks twice.
6. Press and hold **OK** until the red light blinks twice.
7. Press **OK**. The red light blinks twice.
8. Press and hold **OK** until the red light blinks twice.

Volume Punch Through

The **Volume Punch Through** option allows you to be able to use some functions of your television, DVD player or the set top box at the same time. When you press the **Volume** key, you can adjust the volume (a TV function) without pressing the TV mode key on your remote control.

Last Device Mode Key Pressed: You Can Control STB TV volume up and down, mute DVD TV volume up and down, mute.

1. Press and hold **OK** until the red light blinks twice.
2. Press **OK** and **Repeat** until the red light blinks twice.
3. Then press **OK** and the red light will blink twice. To cancel the "Volume Punch Through"-per mode (Example: to cancel the "Volume Punch Through" for the DVD mode)
 - a. Press **OK**.
4. Press and hold **OK** until the red light blinks twice.
5. Press the **Volume** key and the red light will blink four times. Functions of your DVD mode will be able to control (VOL- or MUTE). To cancel the "Volume Punch Through"-per mode
 - a. Press and hold **OK** until the red light blinks twice.
6. Press the **Volume** key and the red light will blink four times.

Brand Codes

The following 4-digit codes are used when configuring the remote control. First, find the manufacturer of your equipment and then try the codes one by one.
