Basic Trouble Shooting IPTV

1. If your TV is on Blue/Black screen, you will need to unplug the power from the Set Top Box/DVR at the wall outlet or power strip.

2. Leave unplugged for at least 1 minute, then you can plug the Set Top Box/DVR into the power. The Set Top Box/DVR should have a green light on front screen that indicates power to the Set Top Box.

3. Turn on the power to the TV. Wait until you see the Minerva Middleware Updating (you should see pinwheel going around) then it should go to channel 2.

4. If your Set Top Box/DVR has a clock display, the time should display the correct time. If the Set Top Box/DVR has a Red light on, then you will need to press the STB button (located on the upper right-hand corner of the remote). Press STB button, and then power button. Power button on Set Top Box/DVR, should turn green.

5. If your Set Top Box/DVR doesn't come up with green power light, you will need to follow step 1 again.

6. Make sure you are on the correct input on the TV (input is the connection type that you have from your Television to the Set Top Box/DVR).

There are many different ways to connect your TV to the Set Top Box/DVR.

Connection Types:
HDMI 1, HDMI 2, COAXIAL, COMPONET CONNECTION ETC.

*Update Dec 2021
